

Group 6- Sprint 1 review

(Omar Al-dulaimi, Entor Krasniqi, Doni Kojovic, Sarujan Mathyruban)

Sprint 3 Objective:

- Objective: This document outlines the objectives and tasks completed during Sprint 3, focusing on extending the functional prototype, integrating Jenkins for CI/CD, enhancing automated testing with code coverage, and preparing for a functional review. The primary goal was to solidify the backend logic, add critical features, and establish a robust CI/CD pipeline to ensure continuous integration and delivery. We start to create a local docker image for our project.

What has been done :

- Functional Review Readiness
- Extend Functional Prototype (3 points)
- Prepare for Sprint Review
- Integrate Jenkins for CI/CD (5 Points)
- Automated Unit & Coverage Testing
-

What is in progress:

- Docker image task and also javafx image stuff is still in progress

Obstacles we faced:
